Product Service Bulletin ENC 2015-001

Date: November 16th, 2015
Subject: GHS Compliance Update

Rating: **Alert** (Potential problem) **Directive** (Action is required)
 Information (Action is optional) **Product Improvement** (Enhance product)

Model: Polyurethane Foam "A" and "B" 5 Gallon Pails

Part Number(s): Foam "A" 5 Gallon Pail Encore Rail Systems Part Number E17001055
Foam "B" 5 Gallon Pail Encore Rail Systems Part Number E17003273

Summary: Encore has replaced the traditional white 5 gallon pails with colored (red & blue) pails to help identify the product. Along with this change Encore will be adhering to new compliance standards implemented by OSHA called the GHS (Globally Harmonized System), which is an international classification and labeling of chemicals. This change is to enhance and clarify new chemical classifications via pictograms and SDS's. The SDS's will be available via our website, www.EncoreRS.com/sds, and will be shipped with all new product orders. These changes will be in effect immediately.

Action: All labels and MSDS will be changed to conform to the new chemical classifications and requirements. Encore will continue to provide product support through on going field support and training. This change will be color change of the pails, which will help identify the product. The label will be changing from color to white and will incorporate all required GHS information. No part number changes are required when ordering.
